

**DEPARTMENT OF COMMUNITY PLANNING AND BUILDING
INTEROFFICE MEMORANDUM**

TO: Board of County Commissioners and Planning Commission
VIA: Terry Shannon, County Administrator
VIA: Chuck Johnston, AICP, Director
FROM: Mary Beth Cook, Deputy Director *MB*
DATE: October 24, 2012
SUBJECT: Adequate Public Facilities Report for Schools – November 1, 2012

Background:

The Zoning Ordinance states in Article 7-1.05 D.1 that “Schools are adequate when all public elementary and secondary schools which will serve the proposed residential subdivision or residential development will accommodate the pupil yield from that residential subdivision or residential development without exceeding 100 percent of the rated capacity of any of those schools.”

The Calvert County Zoning Ordinance, Section 7-1.05 E states, “If facilities are identified as having inadequate capacity, the Department of Planning and Zoning shall notify the Planning Commission and the County Commissioners.”

Parcels that meet certain criteria listed in the Zoning Ordinance are exempt from Adequate Public Facilities (APF) Requirements for Schools (Section 7-1.05. F). Determination of school adequacy is not required for non-residential subdivisions or age-restricted housing communities. The Zoning Ordinance limits the delay of final approval of a residential subdivision or residential development to seven years.

Discussion:

Since the Spring 2012 Report, there has been no change to the open/closed status of Calvert County Schools. Of Calvert County’s 23 public schools, three (3) are deemed inadequate since enrollments exceed 100% of the County’s Adequate Public Facilities (APF) rated capacities for those schools. These are the same three schools that were over capacity in the spring. The following one (1) elementary school, one (1) middle school and one (1) high school have inadequate capacities:

Beach Elementary	125.7%
Northern Middle	109.0%
Northern High	117.9%

The attached chart shows the Fall 2012 enrollments compared with APF rated capacities for each school. The Calvert County Public School staff provided the enrollments for September 30, 2012, and the Career and Technology Academy attendance (see attachments). The number of elementary school classrooms, the number of middle and high school teaching stations were provided by Calvert County Public Schools in October 2012. The chart showing the calculation for each school’s APF rated capacity is attached. The calculations for determining the elementary, the middle, and high school APF rated capacities are specified in the Calvert County Zoning Ordinance.

Maps are provided for elementary, middle, and high school levels and the report includes a composite map of all school levels that are over 100% capacity (attached). The maps are for illustrative purposes. The Board of Education’s written descriptions of school district boundaries determine which school districts serve a residential subdivision or residential development. If there is a question regarding which school district serves a parcel, the Board of Education makes the final determination.

8c

Elementary Schools

Of the 13 elementary schools, one is over 100% APF capacity: Beach (125.7%). With two exceptions, the remaining elementary schools are below 90%. Two elementary schools, Dowell and Mt. Harmony, are over 90% but less than 100% capacity.

Middle Schools

One of the six middle schools, Northern Middle, is over capacity at 109.0%. The remaining middle schools are less than 90% capacity.

High Schools

One high school, Northern High School, is over capacity at 117.9%. The remaining three high schools are between 95.7% to 97.1% capacity.

Schools Approaching 100% Capacity:

The Zoning Ordinance states in Article 7-1.05 D.1 that “Schools are adequate when all public elementary and secondary schools which will serve the proposed residential subdivision or residential development will accommodate the pupil yield from that residential subdivision or residential development without exceeding 100 percent of the rated capacity of any of those schools.” The number of lots/units that may be recorded is limited based upon the pupil yield by school level and housing type, which are provided in the Zoning Ordinance.

Student Transfer Analysis:

In August 2011, the County Commissioners requested staff include an evaluation of the impact of student transfers on the county school capacities in future Adequate Public Facilities Reports. In this report, Staff included a chart, entitled *Enrollments Compared with APF Rated Capacities Transfer Students*, evaluating transfer student impacts by subtracting the number of incoming students and adding the number of outgoing students. The chart indicates that the same three schools would be over capacity if transfers were factored out. Beach Elementary, Northern Middle and Northern High School would be over capacity. Thus, the transfer student policy does not impact whether a school district is opened or closed to the recording of residential subdivisions or residential development.

Conclusion:

FYI. The next report will be the April 1, 2013 report.

Fiscal Impact:

N/A

Notes:

1. High school capacities include the lower number of students attending the morning or afternoon session of the Career and Technology Academy at the beginning of the grading period.
2. FTEs for Pre-K and Special Pre-K are included in elementary school enrollments. Kindergarten students attend full day (policy began in 2006-07 school year).

Based upon information provided by the Board of Education: September 30, 2012 enrollments and Career Center attendance (received 10/23/2012).

Key:  School with inadequate capacity. School district closed to recording of subdivisions/residential site development plans.
 School with inadequate capacity. School district deemed adequate for recording of subdivisions/residential site development plans.
0 School not yet constructed/open.

Notes:

#1 On May 11, 2001, the Adequate Public Facilities regulations were amended by the Board of County Commissioners. Amendments included changing the school capacity formulas, reducing inadequacy from 110% to 100%, and considering elementary schools individually rather than in aggregate.

#2 The high school redistricting plan for Huntingtown High was adopted by the Board of Education in March 2003.

#3 The elementary school boundaries from Prince Frederick, north become effective August 2005; new boundaries are included in the Spring 2005 APF Report.

#4 The elementary school boundary adjustments related to the construction of Barstow Elementary School become effective August 2008. New boundaries are included in the Fall 2008 Iterim APF Report.

Notes:

1. High school capacities include the lower number of students attending the morning or afternoon session of the Career Center at the beginning of the grading period.
2. FTEs for Pre-K and Special Pre-K are included in elementary school enrollments. Kindergarten students attend full day (policy began in 2006-07 school year).

Based upon information provided by the Board of Education: October 2012 enrollments and Career Center attendance as of September 30, 2012.
